PRECAUTIONARY STATEMENTS

In all cases, it is recommended that a
small scale test for compatibility be
conducted before mixing a full batch.

MAXIMUM POTASSIUM FOLIAR

FORMULATED TO SUPPLY QUICK AND SLOW RELEASE NITROGEN

Tests show that nitrogen absorption through the leaf depends on electrical charges. ROCKET-N is formulated to enter the leaf surface and quickly supply nitrogen that is needed for plant functions. With added slow release nitrogen for extended feeding.

VITAMINS AND BIO STIMULANTS INCREASE NITROGEN UTILIZATION

Made from the finest high quality natural sources of vitamins for improved performance and better cell growth.

EXCELLENT TANK MIX BASE

ROCKET-N has excellent solubility and mixes with **Micro Sea, Vitalus**, and all **TRACK** products for outstanding turfgrass response.

APPLICATION INFORMATION

Turfgrass: Apply 6-8 oz per 1000 square feet followed in 0.5 to 1.5 gallons of water per 1000 sq. ft. Allow to sit on leaf for 4 hours before rain or irrigation.

Suggested nozzle – Tee Jet Turbo Twin Jet at 40 psi for maximum coverage.

MAXIMUM POTASSIUM FOLIAR
